Scopes of Work Quoted

Waterproofing, Firestopping, Caulking & Sealants - CORE Moisture Protection & Sealants Package #040

Tonopah High School Sports Complex – Nye County School District

1 Ray Tennant Way

Tonopah, NV 89049

Please find enclosed our proposal to furnish and install Sheet Waterproofing, Joint Firestopping Systems, Acoustical Sealants, and Joint Sealants for the above-named project. Our proposal is based on furnishing and installing all work in accordance with specifications and scope of work listed below. Should our quotation be acceptable, we will forward to you our submittals for your and the Architect's Consideration in accordance with the contract documents.

Contract Documents:

1. Drawings and Specifications prepared by KNIT Architects dated latest: May 6, 2026 (Addendum 1).
 - a. Section 079200 - Joint Sealants
2. Other relevant bidding documentation:
 - a. CORE "01.2 Invitation to Bid"
 - b. Addendum 1 changed plans and specifications.

Waterproofing Scope of Work:

1. **Installation of Sheet Waterproofing System at the exterior side of below grade footings** of perimeter New Building stem / foundation walls. See 072100 Spens where mentioned Protection Board.

Concrete Joint Sealants Scope of Work:

1. **Masonry-CMU Control Joint Sealants**
2. **Masonry-CMU Penetration Sealants**
3. **Exterior Hollow Metal Frame / Door Openings**
4. **Interior Window Frames & Doors**
5. ALL including Backer Rod and color matching requirements.

Special Firestop Pricing per Bidding Documents / Specifications:

1. Includes joints for **Gypsum & CMU Partitions** per *Life Safety Plans Sheets & assemblies shown on Sheet A8.00 with Details*.
2. Includes **Joint ID Labels** per **Spec 078443 Section 3.05 IDENTIFICATION Paragraph A**.
3. Includes "ALL Electrical Room" per CORE #038 Bid Form - 4. Scope of Work – Paragraph e - Bullet I – Room #113, 170, 222, 253.
4. **Single Manufacturer** as mandated per **Spec 078443-2 Section 1.05 Paragraph B**.

Interior / Acoustical Sealant Scope of Work:

1. **Acoustical sealant at joint installations including top, base, and verticals of wall assemblies to dissimilar substrates**, example gypsum wall assemblies to underside of floor, roof, or deck. Cost based on a maximum 1" joint width including notes for joint installations with backing and spray/sealant on details shown on *Sheet A9.05*.
2. **Acoustical Sealant installation at penetrations through wall assemblies – NOT INCLUDED**
3. Includes **Base of Wall sealant** to ALL wall types.
4. **Excludes Control Joints** on interior Gypsum Wall Assemblies.

Qualifications & Exclusions:

1. Applicable Hourly Fire & Smoke Resistance Ratings requirements on *G Sheets showing* hourly requirement markings.
2. Wall Types per *Sheet A4.20 Partition Schedule* with listed Hourly & Insulation requirements as constructed.
3. Floor and wall assembly framing, members, supports, attachments, and any coring/sleeving are the responsibility of others.
4. Excludes engaging, funding, scheduling, or responsibilities of Inspecting agencies for firestopping inspections. GPI agrees to fully participate with any Customer, Customer's Representative, Manufacturer's Representative, and/or Authority having jurisdiction for project firestop inspections. Limit 2% destructive / 10% visual each for inspections, common industry standards.
5. **Excludes any Under slab Vapor Barrier** shown in Sheet A2.30 Detail #1. Typically performed by Concrete Installers.
6. Excludes Firestopping / Sealants at Special Substrates like roofing, glazing, HVAC finish grilles, sprinkler heads, cabinets, millworks, escutcheons, covers, finish Plbg / Elec fixtures, ACT ceilings, and/or their framing/flashing or attachment members.

Tonopah High School Sports Complex
