Jairo,

The cost for the items listed below will be \$26,580.00

- Cost for backfill/shouldering all the concrete flatwork and curbing where flatwork does not exist
- Cost for raking finish grade inside chain link fencing
- Cost for raking the parking area
- Cost for raking 5ft outside the perimeter chain link fence

I am still waiting on figures to come in for trenching/large excavator with a hammer pricing. I will get those over to you as soon as I get my quotes in.

Thank you,

Chelsea Layne

Chelsea,

Following up on our conversation, please provide the following information **by Monday, 6/1/26, in the afternoon.**

- Cost for the trencher
- Cost for backfill/shouldering all the concrete flatwork and curbing where flatwork does not exist
- Cost for raking finish grade inside chain link fencing
- Cost for raking the parking area
- Cost for raking 5ft outside the perimeter chain link fence

If you have any questions, please let me know.

Thank you,

Jairo Gomez
Project Engineer

Morning Chelsea,

Can you price out a trencher instead of the backhoe and hammer?

We are expecting to hard dig at a shallow depth, and we feel like a trencher will be more adequate.

Please let me know if you have any questions.

Thank you,

Jairo Gomez
Project Engineer

We will need to use a backhoe, a hammer for caliche removal, a mini ex and a roller and plate compactor for the shot put discus fields.

If we do not have to haul off caliche that would save us \$7900.00

Hey Chelsea,

Quick question on the Tonopah field, what equipment are you guys planning on using?

Also, can you provide a cost saving for keeping the caliche spoils on-site?

Thank you,

Jairo Gomez

Good morning,

Please see my attached descope response.

Added some clarification to what we discussed during the meeting. Long Jump Pits and rock in particular.

Please reach out to me on my cell if you have any questions.

I am heading out to job sites in a bit and will be away from the office until Tuesday.

Thank you,

Morning Chelsea,

Following up on our descope meeting for the Tonopah field replacement, please provide the following information by **5/21/2026**:

- Provide cost for caliche at 2 ½ ft around the field
- Provide cost for long jump sand pit
- Provide cost for rip rap at the east slope (From alternate)
- Provide cost for rip rap at the swales (Rock comes from Beatty)
- Provide cost for benches and trash receptacles

If you have any questions, please let us know.

Thank you,

Jairo Gomez
Project Engineer
