I apologize Dawn, we usually have the carpet/vinyl flooring contractor install the wall bid & the FRP/Drywall contractors install the schluter strip. I provided add/alts below for both options, we are ok either way if you sub those two scopes of work out to others or have us complete.

- **Concrete Finishing**

1. What product did you quote? - We would prefer to use an approved equal to the Duraflex DurAChip system. We will submit a substitution to use Flowcrete "Peran Floor Flake", shouldn't be an issue getting this approved as it is a public project & we have completed over 30 CCSD schools using this system. However, if they do not approve the substitution, we will not issue a price increase to use the basis of design material.
2. ADD (200 LF) 4" rubber wall base (supply & install) - \$3,500.00 ADD.
3. Add schluter strip at the top of the cove base - \$2908.00 ADD.
