			Taxes:	\$7,398.42
			Grand Total:	\$129,737.79

Thank you for the opportunity to provide you with an estimate! We look forward to working with you.

TERMS AND CONDITIONS

ESTIMATES: The pricing on this estimate is good for 30-days. All estimates are subject to change based on the scope of work. This estimate only covers those products and services outlined above. Your sign or graphic is a customized piece. If you require changes to your design and/or scope of work after it has been designed and approved, charges for additional design time and material as well as any restocking charges incurred will apply.

DEPOSIT: Customer shall pay 100% of all orders under \$2,000 up front upon order. For orders over \$2,000, Customer shall pay 50% of the total order upon placement of the order AND the remaining 50% before delivery and/or installation

WARRANTY: Image360 warrants that the goods sold hereunder are new and free from substantive defects in workmanship and materials for a period of one year. Image360's liability under the foregoing warranty is limited to replacement of goods or repair of defects or refund of purchase price at Image360's sole option. Image360 makes no other warranty, express or implied, and none shall be imputed or presumed.

ARTWORK/MEASUREMENTS: Image360 is not responsible for the condition or quality of any artwork or measurements which are provided by the customer. Any art, drawings or pictures submitted as part of this quotation are the property of Image360 and cannot be used by any other party or company in association with the quoted project without the written permission of Image360.

COLOR: Image360 will attempt to match any colors where a physical sample is provided by the customer within the limits of the color gamut of our printing equipment. Orders without physical samples are not guaranteed for color. Image360 uses digital inkjet printing technologies and we require artwork to include Pantone colors (no CMYK mixes) to have predictable color output. Color matching charges MAY apply.

PROOF APPROVAL: It is the customer's responsibility to ensure the proof is correct in all areas. Be sure to double-check spelling, grammar, layout, colors, sizes, quantities, and design BEFORE approving the proof. If a proof containing errors is approved by the customer and it goes through production, it is the customer's responsibility for payment of all original costs of production and costs of reproduction. Production will only begin once the proof is signed by the customer.

INSTALLATION: The installation price included in this estimate is our best estimate of the time involved with your project. Sometimes unforeseen circumstances impact labor. The final invoice MAY be adjusted to reflect actual labor charges. Image360 is not responsible for wall surface or paint damages that may occur during removal of any existing customer signage. Image360 is not responsible for damage to any landscaping, irrigation lines or irrigation wiring.

SURFACE PREP/ACCESS: Customer is responsible for making sure the surface or substrate is ready for installation when we arrive or additional charges MAY apply. It is the responsibility of customer to arrange for access to the roof or installation area. Customer is responsible to ensure the structural integrity of any surface where the sign will be installed.

CUSTOMER SUPPLIED MATERIAL: Image360 is not responsible for the performance of, damage to, or failure of customer-supplied products or materials. Image360 also does not provide warranty for these materials. If customer-supplied materials fail for any reason, it is the responsibility of Customer and Customer's insurance company to cover any damages or any other issues related to the failure of customer-supplied products or materials. Further, Customer fully indemnifies Image360 of any liability related to Customer Supplied materials or products.

CALICHE: In-ground sign installation quotes are based off typical Clark County dirt. If Caliche is found to be present at any time during the installation process, Image360 will stop, and the customer will be notified immediately. Image360 will provide an additional estimate of time and equipment needed to complete the installation.

ELECTRIC SIGN INSTALLATION: Customer is responsible for providing a dedicated 120-volt, 20 amp service to the location (no more than 10ft. away) where the sign is to be installed. This estimate is based on "normal" access to the space in the building behind the sign and assumes that holes can be drilled in the building with "normal" power tools. If access to the area behind the sign is limited

or if the building materials do not allow the use of normal power tools, Image360 will notify the customer of the conditions and will provide an estimate for the additional costs to proceed. In some cases, it will be necessary to drill through a parapet or roof to install the sign. In these cases, Image360 will patch the holes with silicone to prevent leakage, however Image360 cannot be held liable for any resulting violation of the terms of the owner's warranty. Customer should review the roof warranty and notify Image360 if the sign installation will negate or modify the terms of the warranty. The National Electric Code requires any sign installed in an attic or soffit areas must have a 12-inch-wide catwalk which extends the full length of the sign. The installation of the catwalk is the responsibility of the customer and is not covered in this estimate.

ADDITIONAL APPROVALS: Additional approvals MAY be required (HOA, POA, Board of Directors, Property Management, Mall Management, etc.). It is the customer's responsibility to get all approvals necessary to complete the project other than government permits, which are the responsibility of Image360.

CREDIT CARD CONVENIENCE FEE: There is a 3.5% convenience fee added onto any payment made with a credit card.
