

FOODSERVICE EQUIPMENT BID PROPOSAL

Date: 12 May 2026

To: Core Construction

Attn: Dawn Duranleau

RE: NCSD Tonopah High School Sports Complex

Restaurant & Store Equipment Co. ("RESCO") is pleased to provide this proposal for the Foodservice Equipment package associated with the above-referenced project

Proposal Summary

Total Proposal: \$ 33,950 (applicable tax is included)

Basis of Proposal

This proposal is based solely upon the architectural drawings, equipment schedule, and limited food service information provided at time of bidding. No dedicated food service consultant drawings, utility rough-in drawings, coordination drawings, or written food service specifications were provided for this project.

Pricing has therefore been prepared using industry-standard assumptions for a typical high school concessions installation. Any revisions, clarifications, additions, coordination requirements, utility requirements, code compliance modifications, or scope items identified after award shall be treated as additional work and addressed through change order.

Value Engineering

Our proposal is based on the contract documents as issued. RESCO can offer a cost-saving alternate whereby equipment is procured by RESCO and shipped directly to the project for installation by the General Contractor or others.

This alternate can reduce overall project cost by eliminating field labor, warehousing, handling, and installation costs associated with a traditional furnish-and-install scope.

Under this option, RESCO's scope would be limited to equipment procurement and delivery coordination only. Installation, receiving, unloading, assembly, utility connections, and startup coordination would be by others.

Pricing for this alternate assumes equipment is shipped direct from manufacturer to project site in standard manufacturer packaging and delivery conditions.

Any return trips, field service, replacement parts, warranty labor coordination, or site visits requested due to installation by others shall be billable at RESCO's standard service rates.

VE Proposal Total: \$29,000 (applicable tax is included)

Equipment Scope Clarification

The attached BID QUOTE represents the items included in this proposal and forms the basis of our pricing. Equipment quantities, model numbers, and tags listed define the scope of work included. Any equipment, accessories, or components not specifically identified in BID QUOTE are excluded unless otherwise noted.

Scope of Work

RESCO shall provide delivery to jobsite, uncrating, setting in place, and fastening equipment to walls and floors where specified.

Clarifications and Exclusions

- Millwork, solid surface countertops, or casework.
- Rough-in utilities or final plumbing, electrical, mechanical, or control connections.
- Building modifications, cutting, patching, coring, or fire/seal penetrations.
- Engineered or stamped drawings, delegated design, seismic engineering, or BIM modeling.
- Performance and payment bonds (available at additional cost).
- Subrogation waivers or insurance endorsements beyond standard coverage (at additional cost).
- Final cleaning, including removal of manufacturer protective coatings.

Price Validity

Pricing is valid for sixty (60) days from the date of this proposal unless otherwise stated. Absent execution of a written subcontract or Notice to Proceed within this period, pricing shall be subject to adjustment based upon manufacturer increases, material escalation, tariffs, freight adjustments, or market conditions.

Schedule and Delay Escalation

Pricing is based upon a reasonable and continuous construction schedule consistent with standard manufacturer lead times. Any delay, suspension, resequencing, or extension of the project schedule beyond originally anticipated installation dates shall entitle RESCO to equitable adjustment for storage, remobilization, additional handling, labor escalation, and manufacturer price increases.

Payment Terms

Proposal is expressly conditioned upon progress payments for equipment and materials upon receipt at RESCO's warehouse. Stored materials shall remain insured and available for inspection. Final payment terms shall be net thirty (30) days unless otherwise agreed in writing.

Warranty

Manufacturer warranties apply. Warranty commencement shall be the earlier of substantial completion, first beneficial use, or sixty (60) days following delivery to jobsite.

Acceptance

This proposal is subject to execution of RESCO's standard subcontract agreement or mutually agreeable contract terms. Any terms inconsistent with this proposal are expressly rejected unless agreed to in writing.

Respectfully submitted,

Nelson Swett
