**Subject:** Re: Scoreboards & Signage - Bid Follow Request (NCSD Tonopah HS Field)

Dawn - The quote came back at \$70. We'll just add it to our scope w/no change in price.

Dawn - Items H1 and H2 are confirmed. Generally, we don't include the battery pack because it is very expensive (\$3,000) and requires climate-controlled storage. Do you know if the press box has electricity? The standard set up has a 120v 3-prong plug.

Let me know if I need to increase our bid to add the battery pack.

Hi Karen,

Regarding the Scoreboard pricing – can you please confirm that you have included this option with the scoreboard controller (or provide ADD COST):

H. Accessory Equipment

1. 2.4 GHz spread spectrum radio system with frequency hopping technology interfering channels; system includes a transmitter installed inside the scoreboard and a receiver installed inside the scoreboard(s)
2. Hard carrying case
3. Battery pack

Our understanding is that this is a wireless control that does not include any low voltage pathway from the scoreboard to the press box or other location (this is reflected on the low voltage plan: no conduit shown).

Let me know if you have any questions.

Thank you!
